

STANDARD FORM NO. 64

~~SECRET~~*Office Memorandum* • UNITED STATES GOVERNMENT

SPM 8-594

DATE: 19 March 1958

TO : Chief, Engineering Division, OC

FROM : Chief, Supplemental Programs Division, OC

SUBJECT: Broadband High Gain Antenna

REF : SPM 8-554

1. We are informing you that the referenced request asking for a continuation of the 150 - 1000mc truncated parabola project should be cancelled. The operation using this antenna has expressed no interest in an antenna of the size outlined and agreed with the recommendations for the eight foot circular dish now under contract with [REDACTED]

25X1

2. As you may recall, the location of a usable antenna that could be obtained for the coming operational season was delayed and confused by too much "help". This assistance apparently formed the continuing requirement without considering the users' desires. Fortunately, your recommendations and our acceptance are providing the most desirable antenna on an expeditious basis. Therefore, we can discontinue all efforts for the truncated dish and concentrate on the delivery of the eight foot circular parabola with three feeds.

3. [REDACTED] of your Division was verbally notified of this cancellation so he might take the necessary action to retract any bid requests that had been extended.
